Transferring Patients

to Methodist Healthcare Facilities Via Methodist Healthcare Patient Placement Services.

When the need arises to transfer an adult ER patient from another hospital, doctor's office, nursing home or long term care facility to any of the Methodist Healthcare hospitals, Methodist Healthcare Patient Placement Services is available every day around the clock to assist.

Simply call 210-575-ADMT (2368) or toll free 877-575-ADMT (2368).

A registered nurse experienced in critical/acute care with strong clinical assessment skills will answer the phone and provide assistance with the transfer and can also help with any necessary referrals and sourcing specialists. The nurse has a real time, electronic tracking board displaying available beds and services at all Methodist facilities right in front of them. So referring physicians get real answers real quickly.

For Pediatric, Neonatal, Maternal and Women's Services, call Methodist Children's Hospital Placement Services at 800-277-7428.

For comments or questions, call Susan Sewell, Vice President of Patient Management at 210-575-4518 or email susan.sewell@MHSHealth.com.
